You'll find driving directions and important travel info on our website under the section «ARRIVAL».

## AWNING / PAVILION / TENTS

A maximum of one awning or pavilion (max. 3 x 3 m) is permitted per motorhome pitch.

Tents and motorhomes are kept separate! Except for one awning or pavilion per motorhome, it is not permitted to set up additional tents in the separate motorhome park. Please note: The motorhome park is located on hard surface only!

## ELECTRICITY

There are electrical distribution boxes at various locations throughout the motorhome park (230V outlets). Each visitor is responsible for providing their own extension cord.

## GAS INSTALLATIONS

By purchasing a motorhome ticket, ticket owners confirm that their vehicle has a valid, inspected gas installation. Only vehicles that have been inspected accordingly are permitted at the motorhome park. The inspection sticker must be displayed in a clearly visible location and presented upon request.

Responsibility lies with the ticket holders; Greenfield Festival AG assumes no liability. Vehicles without valid proof may be excluded.
